Profile

Senior Programmer with two years of experience in C#, .NET Framework, ASP.NET Core, and DevExpress controls. Proficient in developing scalable online apps, constructing RESTful APIs, and integrating advanced UI features. Expertise with contemporary web technologies (HTML, CSS, Bootstrap, jQuery) and SQL. I am currently employed by a Japanese firm, where I use my essential Japanese language abilities and cultural knowledge to produce high-quality software solutions.

Professional Experience

Acty System India, Pvt Ltd

Senior Programmer

present | Ahmedabad, India

- Led the design, development, and deployment of high-performance .NET Core apps in C#, ASP.NET Core, and .NET Core.
- Worked with cross-functional teams to create scalable, secure, and dependable software solutions.
- Implemented thorough testing methodologies, including unit and integration tests, to assure application quality.

Programmer

August 2023 - present

Ahmedabad, India

- Developed and maintained web applications using ASP.NET Core.
- Utilize DevExpress controls (e.g., ASPxGridView, ASPxCallbackPanelEx) to implement advanced grid functionalities.
- Conducted software testing to identify and resolve bugs, ensuring high application reliability.

Project Trainee

February 2023 - July 2023

Ahmedabad, India

- Developed and maintained web applications using ASP.NET Core MVC, .NET Framework, and ASP.NET Core Web API.
- Integrated dynamic functionalities with jQuery and AJAX to improve application interactivity.
- Designed and implemented RESTful APIs to facilitate seamless data exchange between systems.
- Built interactive desktop solutions using Windows Forms, optimizing performance and usability for end-users.

Bharat Coking Coal Limited (BCCL)

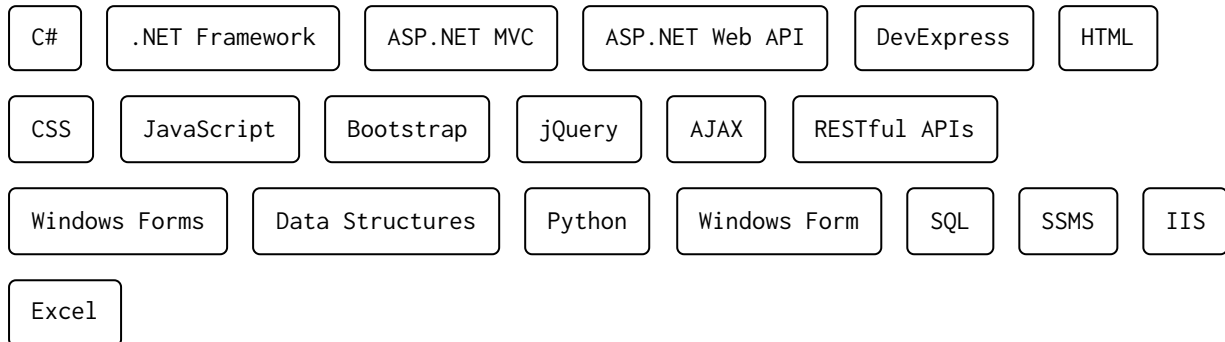

May 2022 - June 2022 | Dhanbad, India

Intern

- Gained hands-on experience in telecommunication systems and their applications in industrial operations.

- Studied the implementation and working of the Vehicle Tracking System (VTS) used for monitoring fleet movement and ensuring operational efficiency.
- Learned and worked with technologies like RFID, Radio Communication, and EPABX (Electronic Private Automatic Branch Exchange) for effective communication and tracking solutions.

Skills

Projects

WW-Editor July 2023 - present

Konica Minolta

- **Technologies Used:** C#, ASP.NET , DevExpress, HTML, CSS, JavaScript, jQuery, AJAX
- **Description:** Developed custom software solutions for Konica Minolta's MFP machines, enhancing functionality and user experience.

RideGo July 2023 - August 2023

Technologies Used: ASP.NET , Web Apps, HTML, CSS, JavaScript, Swagger, RESTful APIs, SQL

Description: Built a bike rental platform allowing users to book 2-wheelers, integrating user-friendly booking features and seamless backend services.

Team Management System June 2023 - July 2023

Technologies Used: C# .NET Framework, ASP.NET , MVC, Razor Pages, JavaScript (AJAX), HTML, CSS, SQL Server (SSMS)

Description: Secure User Management System is a C# .NET-based web application with admin and user authentication. Users can log in, update personal details, and reset passwords, while admins can manage user data and reset passwords for all.

File Copy May 2023 - June 2023

Technologies Used: Windows Forms, Threading
